Deltec 360° Signature Collection

Oasis - 52A

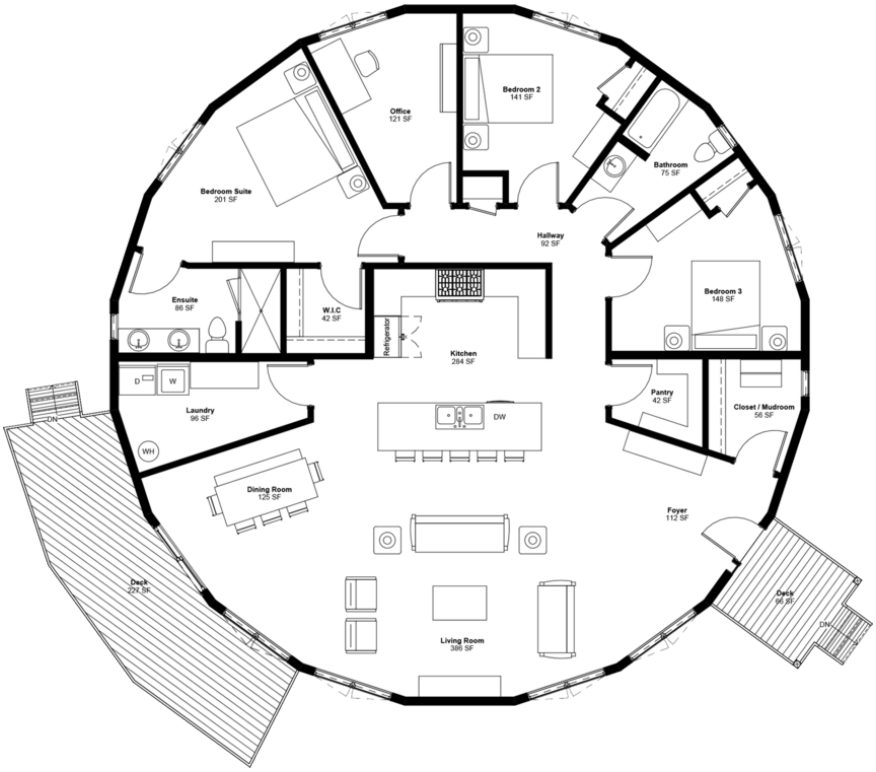

Shown on a crawlspace foundation with Deltec factory-installed high-performance engineered wood siding and optional gable entry roof.

Thanks to the Deltec design platform, the Oasis lives like a much larger home. In fact, we had to triple check the square footage! The airy feeling in this home is what living in a round home is all about. You can choose to enter from the view side or on the side opposite your view, offering flexibility to work with your land.
